Hi Harold,Hows Tricks. 6-4-90.

After doing some thinking, i decided to type you another note.
Your insulting remarks in your letter to me shouldnt go un-answered, so ill respond to them.
As far as me having trouble writing, i have to work for a living, and dont have time responding to nut cases.
I have your number, as that is the Isreal Intelligence trick to turn Family members against each other, only they try to turn one Arab Country against the other one and have them to fight each other, iam sure you remember when Ariel Sharon turned some Arabs loose in Lebanon to Slaughter some enemy Arabs, and you have been trying to turn Family Members against me for years, but iam afraid it wont work, as were not as stupid as most Arabs.
I tried to make your life more exciting and pleasant by telling you some jokes and singing to you, and the thanks i get for it is and insulting letter, so i think you owe me a nice long letter asking for forgivness, if so ill consider it, if not ill leave my options open as of what to do. HOSS

Sholom

Hi Harold,Hows Tricks.

I received your letter yesterday, and after cooling down a bit decided to type you a note.
You mentioned that you were sending a copy of my letter from you to a family member, if you send a copy of thaT LETTER TO anybody, then ill take a week off from work and drive up to Frederick, and i wont be in a friendly mood when i get there,

So if i hear from anybody that has received a copy of that letter, then rest assured that ill be on my way to Frederick.
I should encourge you to send it out to everybody that you know, as after reading it they could tell that youre and educated idiot, as sane people dont talk about other people Mothers, expecially when they have never met them.
you also mentioned how i have hurt Family members, the only way i have hurt them is introducing you to them, as if it werent for you then Fensterwald wouldnt have screwed up all of Jimmy appeals, so nut case back off.

HOSS

Xmas Eve

May the sweet Bird os Paradise land on your nose.
Hoss said all of the above.
